## WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

## NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

## QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

# INVISI**BLE** HAND™

STAR WARS

## WE'RE STILL FLYING AN ENTIRE SHIP

We're so excited to land this model safely in our Starship Collection, as part of our LEGO® Star Wars™ 25th anniversary. Of all the spectacular Star Wars starship scenes in the saga, few compare with the destruction of General Grievous' behemoth, the *Invisible Hand*, in *Revenge of the Sith*. As his kidnapping of Supreme Chancellor Palpatine is thwarted by the Jedi, and his starship is under enemy attack, Grievous launches the escape pods to save his own droid skin, leaving Anakin Skywalker and Obi-Wan Kenobi to pilot the remaining half of the wreck, plummeting to a monumental crash-landing back on Coruscant. It's a breathtaking demonstration of Anakin's pilot skills – and use of the Force.

Enjoy building!

# LA MAIN INVISIBLE™

STAR WARS

## NOUS PRENONS LES COMMANDES D'UN VAISSEAU ENTIER

Nous sommes vraiment ravis de faire atterrir ce modèle dans notre Collection de vaisseaux, dans le cadre du 25<sup>e</sup> anniversaire de LEGO® Star Wars™. De toutes les scènes spectaculaires de vaisseaux de Star Wars, peu sont comparables à la destruction du mastodonte du général Grievous, la *Main Invisible*, dans *La Revanche des Sith*. Alors que son enlèvement du Chancelier suprême Palpatine est contrecarré par les Jedi et que son vaisseau est attaqué par l'ennemi, Grievous lance les capsules de sauvetage pour sauver sa peau, laissant Anakin Skywalker et Obi-Wan Kenobi piloter la moitié restante de l'épave, qui plonge vers un atterrissage en catastrophe sur Coruscant. C'est une démonstration époustouflante des talents de pilote d'Anakin – et de son utilisation de la Force.

Bonne construction !

# MANO INVISIBLE

STAR WARS

## LA NAVE QUE PILOTEAMOS SIGUE ESTANDO EN UNA PIEZA

Estamos muy contentos de que este modelo llegue sano y salvo a nuestra Colección de Naves Espaciales con motivo de las celebraciones del 25 aniversario de LEGO® Star Wars™. De todas las espectaculares escenas de acción espacial de la saga Star Wars, pocas pueden compararse con la destrucción de la descomunal nave del General Grievous, la *Mano Invisible*, en *La Venganza de los Sith*. Mientras los Jedi frustran su intento de secuestrar al Canciller Supremo Palpatine y su nave se encuentra bajo un feroz ataque, Grievous lanza los pods de escape para salvar su propio pellejo robótico, dejando que Anakin Skywalker y Obi-Wan Kenobi piloten lo que queda de ella hasta que logran aterrizar monumentalmente en Coruscant. Este episodio pone de manifiesto las impresionantes habilidades de pilotaje (y del uso de la Fuerza) de Anakin.

¡Que disfrutes construyendo!

## AN ICONIC SEPARATIST FLAGSHIP

Manufactured by Free Dac Volunteers Engineering, the formidable *Providence*-class carrier/destroyer is the flagship of Separatist droid army commander General Grievous and his master, Count Dooku. At 1,088 meters (3,569 ft.) long, 347 meters (1,138 ft.) high and 198 meters (649 ft.) wide, the *Invisible Hand* easily accommodates a crew of 600, 1.5 million battle droids and more than 400 ground assault vehicles. When the Battle of Coruscant leaves its hull and critical compartments dangerously vulnerable, its re-entry into the atmosphere ultimately causes the starship to break in two.

## UN VAISSEAU EMBLÉMATIQUE DE LA FLOTTE SÉPARATISTE

Fabriqué par le Corps des ingénieurs volontaires libres de Dac, le redoutable porte-vaisseaux/Destroyer de classe *Providence* est le vaisseau amiral du commandant de l'armée droïde séparatiste, le général Grievous, et de son maître, le comte Dooku. Avec ses 1 088 mètres de long, 347 mètres de haut et 198 mètres de large, la *Main Invisible* peut facilement accueillir un équipage de 600 personnes, 1,5 million de droïdes de combat et plus de 400 véhicules de combat au sol. La bataille de Coruscant ayant laissé sa coque et ses compartiments critiques dangereusement vulnérables, le vaisseau finit par se scinder en deux lors de sa rentrée dans l'atmosphère.

## UN ICÓNICO BUQUE INSIGNIA SEPARATISTA

Fabricado por el Cuerpo de Ingenieros Voluntarios de Dac Libre, el formidable carguero/destructor clase *Providencia* es el buque insignia del comandante del ejército droide separatista, el General Grievous, y de su maestro, el Conde Dooku. Con 1088 m de longitud, 347 m de altura y 198 m de anchura, la *Mano Invisible* alberga con facilidad a una tripulación de 600 personas, 1,5 millones de droídes de batalla y más de 400 vehículos de combate terrestres. Cuando la batalla de Coruscant deja su casco y compartimientos críticos peligrosamente vulnerables, su reingreso a la atmósfera acaba provocando que la nave se parta en dos.

## SPRING THE TRAP

The characteristic torpedo-shaped hull is thick and solid for a Separatist destroyer. Only a few living passengers travel onboard, so the need for viewing portals is limited, and a dorsal sensor and communications masts allow General Grievous to direct his droid army from the command bridge. Both the interior and exterior design of this model incorporates authentic details and features. The massive main hangar spans the width of the vessel, with transparent panels that let you see through the model – and maybe spot a few Easter eggs.

## ACTIVA ESA TRAMPA

El característico casco con forma de torpedo de la nave es bastante grueso y sólido, incluso para un destructor separatista. Solo viajan a bordo unos pocos pasajeros vivos, por lo que la necesidad de portales de visión es limitada, y un sensor dorsal y mástiles de comunicaciones permiten al General Grievous dirigir a su ejército droide desde el puente de mando. Tanto el diseño interior como el exterior de este modelo incorporan detalles y características de gran autenticidad. El enorme hangar principal ocupa toda la anchura de la nave, y el modelo cuenta con paneles transparentes que te permiten apreciar su interior y, tal vez, descubrir algunos huevos de Pascua.

## ACTIONNEZ LE PIÈGE

La coque caractéristique en forme de torpille est épaisse et solide pour un Destroyer séparatiste. Seuls quelques passagers vivants voyagent à bord, ce qui limite le besoin de portails de visualisation. Un capteur dorsal et des mâts de communication permettent au général Grievous de diriger son armée de droïdes depuis la passerelle de commandement. La conception intérieure et extérieure de ce modèle incorpore des détails et des caractéristiques authentiques. L'immense hangar principal s'étend sur toute la largeur du vaisseau, et des panneaux transparents vous permettent de voir à travers le modèle – et peut-être de repérer quelques œufs de Pâques.

To highlight the scale of this model, this brown piece represents the MTT (Multi-Troop Transport) seen in the background of the hangar scene in *Revenge of the Sith*. These transports each hold over a hundred battle droids!

Pour illustrer l'échelle de ce modèle, cette pièce brune représente le TMT (Transport multi-troupes) que l'on voit à l'arrière-plan de la scène du hangar dans *La Revanche des Sith*. Ces transports contiennent chacun plus d'une centaine de droïdes de combat !

Para resaltar la escala de este modelo, esta pieza café representa el Transporte Multitropas (MTT) que se ve en el fondo de la escena del hangar en *La Venganza de los Sith*. ¡En cada uno de estos transportes caben más de cien droides de batalla!
